

Domain Registration through Fareham Community Action

We recommend the use of a domain name. This has the advantage of presenting a simple, memorable domain to the public. Fareham Community Action has obtained web space through “one and one “. The account enables the space to be divided so that individual groups can access the space independently. Email addresses using the domain name can also be formed.

The domain is not “purchased” as such but rather rented for a period of 2 years. For UK domains an organisation called Nominet records all the domains.

The domain should be registered to the organisation, which can be in the name of an individual or c/o Fareham Community Action. The information in Appendix 1 is needed.

The cost of the service from Fareham Community Action is **£10 per year** including 1 domain, 3 email addresses, occasional telephone support, 100Mb web space and 800Mb bandwidth per month, web space access, FrontPage server if required, occasional changes to the email addresses, 2 hour introductory session,

In 2005/06 the project has been enabled by a grant from Fareham Borough Council under e-gov “Priority Outcomes” G2 programme. Prices may therefore vary in the future. If alternative hosting was required then the domain could be transferred.

Alternatives to registering through Fareham Community Action

See the information sheet “Guidelines for simple web sites” from Fareham Community Action

www.oneandone.co.uk 1&1 offer a range of packages, the basic ones are in the table below. A detailed comparison is available on the 1&1 website.

There are a massive number of companies that provide registration and hosting- even apparently free services – however that is not always beneficial.

Product Name	Key Features	Annual cost inc VAT*
Instant Domain	simply registration of the domain, forwarding and 50 email forwarding addresses - No web space	£2.34
Instant Mail	Domain registration plus 5 email pop boxes No web space	£12.07
Instant Website	Domain Registration, 20 email pop boxes plus 250MB web space, 3GB pm bandwidth	£30.40
Hosting	800Mb space, 300 pop accounts, 10GB pm bandwidth	£70.36
FrontPage Hosting	as Hosting above but FP enabled	£84.46

The registration of a UK domain has to be paid for 2 years. US domains (ie .com, .net, .info) can be registered for 1 year but cost £11 compared to £2.40

*Prices at March 2006

Appendix 1 Agreement and Details required for Domain registration

Manage Contacts: Reg-C

Input the registrant contact (Reg-C) details for your domain(s).
